Frontend:
JavaScript, HTML, CSS, jQuery,
React (basic), DataTables, AJAX,
Bootstrap, Select2, Redocly.

Hobbies

Hitchhiking, tourism, trekking,
motorsport and pet projects.

Russian - native
English - B1-B2
Spanish - A1

Education

Yandex.Praktikum + Stepik + Codewars
Python › Backend Developer
2022 Mar. - 2023 Jan. (11 months)

SPbPU (Peter the Great St.Petersburg Polytechnic University)
Economic Engineer › Management › Marketing
2014 Sep. - 2018 May. | Bachelor's degree

Experience

Python Backend Developer
2022 Dec. - Present | Remote team, Part-Time
- I developed infrastructure for parsing applications, configured network interfaces and ORM, and wrote simple web interfaces.
- Stack: Python, Django, DRF, Nginx, Docker, Celery, RabbitMQ, PostgreSQL.

Python Full Stack Developer, assetsloop.com
2022 Jun. - Present | Assets-Loop (Open Source), Pet Project, Part-Time
- I developed and deployed a web service for collecting and analyzing financial data. The service continuously and multithreadedly parses exchange rates between banks, currency exchanges, and cryptocurrency exchanges. It calculates all transaction chains and outputs the most relevant ones.
- Stack: Python, JavaScript, Django, DRF, Nginx, Docker, Celery, Redis, PostgreSQL, Tor, Bootstrap, HTML, CSS, jQuery, AJAX, DataTables, CI/CD, Git.

Project Manager, B2G
2020 Apr. - 2022 Feb. (1 year, 11 months) | Self-employed
- I developed my own CRM/SRM for tender management for teams with different roles of 4-6 people. I documented, wrote work instructions, and implemented the system. I performed management tasks and led a department of five people. I negotiated with customers and suppliers.
- Stack: Google API, Sheets, TypeScript, SQL, Management, Negotiations, HR.

Project Manager in B2G company
2018 Jun. - 2020 Mar. (1 year 10 months) | ООО "МедКомплекс", Full-Time
- I supported projects for the delivery of medical equipment. I established processes within the team. I negotiated with customers and suppliers.
- Stack: Teamwork, Management, Negotiations, Google Sheets.

PHP Full Stack Developer
2015 Jun. - 2017 Feb. (1 year 9 months) | Freelance, Part-Time
- I added functionality to plug-in applications and worked on customization and development on WordPress.
- Stack: PHP, JS, WordPress, SQL, HTML, CSS, SEO.
